U. S. SENATE PROCEEDINGS.

New York, April 4.

In the United States Commissioner's Court yesterday, in the case of David Moore, which involved certain questions touching the duties and powers of Deputy Collectors of Internal Revenue, Commissioner Osborne decided in favor of Mr. Moore.

A series of voluminous and detailed affidavits had been made by Daniel Drew, Fisk & Holden, Samuel W. Rockwell, W. C. Dornier and Emanuel D. Burr, in reply to the charges contained in the complaint of Joseph B. Stewart, and during the trial the Commissioner in reference to the Erie stock pool transactions.

Mr. Hurd, Chairman of the House Committee on Expenditures, private letters to the effect that he desired no further hearing of any kind, either by counsel or otherwise, just prior to the introduction of the resolution requesting his removal.

The House's Little Rock (Ark.) special of yesterday says: The Erie stock pool transactions have been in session all day and evening. A platform, with resolutions, was adopted of a ultra radical character, approving the Congressional plan of reconstruction and re-admission to Union. Resolutions condemning the President, opposing confiscation and recommending a constitutional committee to be appointed and instructed to establish State Union organizations.

The Committee to wait upon Gen. Ord reported that he heartily approved the object of the Convention and was desirous of co-operating with them.

The Convention will doubtless adjourn tomorrow.

Fending the Convention, a large meeting of freedom was held on the State House square. Several delegates and colored speakers addressed them. Great enthusiasm prevailed and no disturbance was created.

Twelve thousand five hundred and sixty emigrants arrived at Castle Garden last night.

The Herald's San Luis Potosi (Mexico) correspondence of March 31st says: The Liberals in front of Queretaro are rapidly closing around the city to give the coup de grace to the Empire.

Escobedo writes that on the 6th inst. he had closed his line in upon the city, Queretaro, and that he was in a position to close the city.

FORWARDING MATTER ON EVERY PAGE

Republican County Committee.
The members of the Republican County Committee are requested to meet in the Court House in Titusville on the 16th inst., at 1 o'clock p. m., for the usual transaction of business. C. W. MEAD, Chairman.

Varities.

The Buffalo Frontier Police had a jollification at Buffalo, Thursday, over the passage of a law increasing their pay.

An adjourned meeting of Segawatha Lodge I. O. G. T. will be held at the room of the Literary Association this evening at 7 1/2 o'clock.

A series of revival meetings have been held at Franklin, during which there have been two hundred and fifty-nine conversions to the churches.

The House of Representatives at Harrisburg have passed the resolution fixing the pay of members at \$1,350 for this session. The Senate will probably coincide.

Forty prisoners have been sent from Erie county to the Western Penitentiary during the last year. The convicts exhibit almost every crime in the calendar.

Dr. M. C. Egbert and family of Petroleum Centre, started for Philadelphia, intending to take the next steamer from New York to Liverpool. They go to the Philadelphia Exposition.

Dr. Abney, oculist and aurist and physician for diseases of the throat and the organs of the chest, may be consulted at the Pendleton Hotel, until May 1st. Office hours from 9 a. m. to 4 p. m.

There has been several land slides on the Warren and Franklin railway, with the past few weeks. As the weather settles, these annoyances to travel and transportation will become rare occurrences.

The Chairman of the Pettis County Convention has called a meeting at Meadville on the 15th inst. The gentlemen named as members of the committee from Titusville do not, with a single exception, now reside here. They have "changed their base."

Senator Lowry, of this District, has been called by John Burns, the "hero of Gettysburg." The came bears the following inscription: "The rock of this stick was baptized by the blood of Gen. Reynolds, cut by the hands of John Burns, who presented it to Senator Lowry."

The Cleveland Herald is responsible for the following: "Father, are you going to see the race to-day?" "Father brightening—" "What race, my son?" "The human race," was the astonishing response. Husband to wife—"Mary, that you will be an editor yet." Wife—"God forbid!"

The constables of Titusville made a descent upon a keno establishment in that place on Friday evening, and made several arrests. The keno was in charge of W. D. Truett of Petroleum Centre. He was examined before Justice Morrison and held to bail in the sum of \$500. A number of witnesses were held to bail in \$100 each.

The Titusville Record is especially severe on Representative Chase for favoring Titusville projects, and evidently supposes that Mr. Chase was elected for the purpose of opposing the local interests of Eastern Crawford.

The Record warns its readers against his reelection, if, as it says, "he should again have sufficient cheek to offer himself for the position."

City Appointments.

We published yesterday the appointments made by the Common Council on Wednesday evening and commented on the fitness of the gentlemen selected for the respective positions. At the previous meeting other officials were chosen, including Chief of Police, City Treasurer, Tax Collector, Chief Engineer, City Sealer and City Clerk.

The re-appointment of Mr. Withersop as Chief of Police is gratifying to all who are acquainted with the duties of the office and the qualifications of the present incumbent. We believe him to be thoroughly incorruptible, and have yet to hear of any charge affecting his personal integrity during his previous term of service. There had been some difference of opinion in the Board as to the expediency of electing a Chief this year, but the question was decided in the affirmative and Mr. Withersop was immediately elected by a two-thirds vote.

The re-appointment of Mr. Allen as Treasurer and Mr. Farrington as Collector was made by acclamation, and they could ask for no better endorsement of their fidelity to official trust and responsibility.

Mr. Goodwin, Chief Engineer, has had the opportunity of becoming familiar with the wants of the Fire Department, as a member of the Fire Committee while in the Council. He is likewise an experienced fireman, and has had ample experience. Mr. Winsor, the former incumbent, has exerted himself actively for the benefit of the organization, and has proved a efficient and popular Engineer. He was not a candidate for re-election.

Ezra Clark, the new Sealer of Weights and Measures, has already served in that capacity elsewhere, and is familiar with the duties of the position. It is his intention, we believe, to procure the requisite apparatus, which will cost about \$300. Properly the city should make this purchase, and hold it as city property. The emoluments of the position are trifling, although it is among the most important of the city officials.

A word of commendation is due concerning our late City Attorney, Mr. F. B. Guthrie. Although the city has had the good fortune to have a serious litigation, several suits have been instituted which, but for the professional care and discretion of the Attorney, must have resulted unfavorably. At the beginning of the year the position required considerable labor and attention, as it involved also the duties of City Clerk. Mr. Guthrie's professional advice in the framing and enforcement of ordinances was advantageous, and his unavailability absence from his place has been usually supplied from his own office. No stated salary is attached to the position, but we have no doubt he will be suitably remunerated by the Board. His resignation of the office was tendered the 1st of January, but at the unanimous request of the Board he completed his term.

Mr. Byles, the newly elected Clerk, has served in that capacity for several months past, and has proved a worthy gentleman and faithful official.

We referred to the other appointments in yesterday's Herald. The Board has been fortunate in its selections, and although there were several candidates for some of the positions, the appointments are of a character to give general satisfaction in the community.

The Teachers' Institute commences here on the 9th inst., and continues four days. Superintendent Sweetser has consented that teachers ride over the Oil Creek Railroad for half fare during the session of the Institute. The application was made on behalf of the Institute by Mr. Clarke King.

A large lot of pure turpentine, varnishes, furniture driers, coach and asphaltum for sale cheap at Olmsted & Jewett's. Best furniture varnish at 65¢ per gallon.

Pure Lined Oil and Turpentine, warranted as represented, or money refunded, at Olmsted & Jewett's.

Proceedings of the Common Council—Regular Meeting, April 3, 1897.

Present—Messrs. Ostrom, Abbott, Reed, Hobart, McCrum, Fletcher and Custer.

Absent—Messrs. Bunting and Bevan.

Minutes of last meeting approved.

The propositions of Benjamin B. Lippincott and Andrew B. Howland, for the position of City Surveyor, were read, and on motion of Mr. Fletcher the Clerk was authorized to communicate with the different Surveyors of the city and ascertain who would do the work the cheapest, inclusive of all expenses for help, etc.

Ira H. Pierce was then elected City Attorney.

Dr. Varian, Physician, and Geo. H. Coburn, City Marshal.

Ezra Clark was elected Inspector of Burning Fluids, Pound Master and Wood Measurer for the city.

The following Standing Committees were then appointed by the Chair:

Finance Committee—Messrs. Fletcher, Abbott and Reed.

Streets Committee—Messrs. Custer, McCrum and Bevan.

Fire Committee—Messrs. Hobart, Byran and Fletcher.

Police Committee—Messrs. Ostrom and McCrum.

Health Committee—Messrs. McCrum, Ostrom and Hobart.

Law Committee—Messrs. Reed and Custer.

Printing Committee—Messrs. Bevan and McCrum.

Contingent Expenses—Messrs. Abbott and Ostrom.

Excise—Messrs. Abbott and Reed.

Ordinances—Messrs. Fletcher and Hobart.

Amendments to City Charter—Messrs. Fletcher and McCrum.

On motion of Mr. Fletcher, all Committees were prohibited from contracting any debts for the city, without permission from the Council, excepting what may be necessary for the Fire Department.

Mr. Dennis Reagan was chosen 1st, W. Stevens 2d Assistant Engineer.

On motion, the number of night police was restricted to two, Messrs. Leslie and Doherty were chosen.

On motion of Mr. Custer, the salary of Chief of Police was fixed at \$75 per month.

Mr. McCrum moved that the subordinate be paid a salary at \$75 each per month, and that Mr. Custer moved in amendment, that they have but \$55, which was carried.

The sealed proposals from the offices of the Morning Herald and Evening Journal to do the printing required by the Board for the coming year, were opened and read, and after some discussion, on motion of Councilman Abbott, the time for landing in proposals was extended one week, and those landing in proposals are required to state the rates per square for which they will do the printing.

Moved by Mr. Fletcher, that nothing be paid either office for publishing the minutes.

The position of the Western Transportation Company for the right of way for the laying of Oil Pipe from the city line in the vicinity of Oil Creek, to the lands on the south side of Oil Creek, with the right to lay feeders to the different platforms on the railroad track, was read and on motion laid on the table for one week.

The petition of F. Bates & Co., insurance agents, to have the cooper shop of J. H. Bunting, and the depot lands removed, was on motion, referred to a committee consisting of Messrs. Custer, Hobart and Reed.

Thibault of Blues Bros. & Co., which was referred to committee at last regular meeting, was reported on and ordered paid.

Bill of J. S. Stevens, \$2 for services as Judge of Elections, March 10th, 1896, ordered paid.

Moved by Councilman Custer, that the Mayor be requested to restrain by injunction, or otherwise, any party or parties attempting to lay oil pipel through any public street or alley of this city, before action is taken on the matter by the Council.

His Honor, the Mayor, was present and delivered a short address.

Moved that the President of the Board appoint three from each Ward to form a committee on health.

Moved by Mr. Fletcher, that the Mayor make such amendments to the City Charter as he may think necessary, and report at next meeting.

H. B. Ostrom, President.

J. Byles, Clerk.

Semi-Annual Report of the Fire Marshal.

TITUSVILLE, March 27, 1897.

The Honorable Mayor and Common Council:

ENTIRELY: My appointment as Fire Marshal of this city, bears date of September 28th, 1896, consequently I am unable to present a full report for the year.

Within the past six months, ending this date, I have been visited with four fires, involving loss, as near as can be ascertained, of \$30,000, which there was \$5,000 insurance—as follows:

October 18, 1896, the hotel corner Spring and Washington streets, known as the McHenry Hotel, together with stables and outbuildings, was totally destroyed. Loss estimated \$20,000. Insured \$3,000.

January 2, 1897, three dwelling houses corner Martin and Water streets, also totally destroyed. Loss \$3,000. Insured partially.

January 8, 1897, "Ulmans" Block, corner Spring and Franklin streets, was discovered to be on fire in time to prevent a serious conflagration. Loss trifling.

February 11, 1897, the City Hall, together with several wooden buildings, situated between Spring and Arch streets, Loss \$5,000. Insurance \$3,000.

The cause of these fires, with the exception of that on the 2d of January, has been the subject of various opinions. In each case, however, and more especially that of Ulmans' Block, a careful investigation was made, and after a patient examination of many witnesses, nothing definite or positive could be found to prove incendiaryism although without doubt such they were.

The subject of these fires and the chimney has received proportionate attention, and a very large number of such have been removed. With few exceptions the requirements of the Marshal have been readily complied with, with the exception of the poorer classes, with whom many obstacles presented themselves, many of them being without the means to defray the expense of repairs.

The cold winter has greatly retarded the work, but the city today is much improved in this respect, and is a source of congratulation that these defective chimneys have not been the cause of a single fire during the six months now closed.

The appointments of Wm. Wardens have proved very effective, as the losses at fires by theft or otherwise, by this means, has been greatly reduced, and I would recommend for your consideration, that the full power provided for in the ordinance be filled, with good reliable men, as eleven appointments are all that have been made, and of that number, A. H. Brown has been removed from the city, leaving a force of only ten Wardens, which is far too small.

In conclusion, I would call your attention to the music and ball game generally, in which buildings are erected in this city, and would suggest for your careful consideration that the ordinance be adopted requiring a notice of intention to build, to be filed with the City Council, and a permit granted by the said Council obtained, before any building can be commenced.

The establishing of a city fire trucks embracing that portion of the city between and including on Spring, Washington, Main and Martin streets, would also prove a very great benefit to property in said district.

All of which is respectfully submitted.

GEORGE H. COCHRAN, Fire Marshal.

Letter to Dr. Aborn from the Cashier of the Bank in Muskegon, West Virginia.

The following letter was not designed for publication, but rather the certificate which it contains. Dr. Aborn, however, publishes both letter and certificate, as calculated to awaken public attention to the importance of the cases which he treats, and the danger to the patient of deferring surgical treatment, or submitting their case to the treatment of an incompetent practitioner.

MORGANTOWN, W. Va., March 13, 1897.

Dr. E. S. Aborn—Dear Sir:—I owe you many apologies for so long delaying to answer your very kind letter of January 20th. My principal reason for delaying was that I still expected to make you a visit. As so much time, however, has now elapsed, and I am still doing well, suffering no inconvenience from my head, I have abandoned the idea of visiting you, unless it should so happen that I am called away on business, and could spare a day or two to call upon you, and the reason for delay was occasioned by the fact that I expected to be at Wheeling before now, and make some inquiry as to the probability of your making a successful visit there. I have, however, been so much engaged at home this winter, that I did not get off. My impression is that "Wheeling" would be a favorable good place for your business.

The gentleman who was suffering with his eye, in this place, about whom I wrote to you, went to Pittsburgh shortly after you left there, and then went to Weston, in this State, where he is now engaged in business. I am told he has lost the use of his eye entirely, and recently he had the eye ball taken out by some surgeon from Buffalo who happened to be at Weston on some other business. I regretted very much that he did not get to Pittsburgh before you left there. The old gentleman who is suffering from deafness has also been at Pittsburgh on business since you left, and would doubtless have called on you if you had been there. With regard to my own case, I have no hesitation in saying that I have been greatly benefited by your treatment, and I flatter myself that the relief is permanent. I discontinued the use of the remedies some time ago. I shall, however, preserve them carefully, so that I may use them in future, should I have occasion to do so, which I hope most sincerely will not be the case.

If I should be so unfortunate as to have a return of the disease in my head, in any reasonable time, I reserve the right of calling upon you for treatment, as I have every reason to believe, if I am not permanently cured, it is because I did not have your personal attention as long as necessary. I was very glad to hear that your health had improved so much, and I sincerely hope you may continue so. I had upon your separate sheet, a statement of my case.

Yours, very truly, W. WAGNER.

MORGANTOWN, W. Va., March 13, 1897.

Dr. E. S. Aborn—Dear Sir:—I hereby certify that I was afflicted with a disease in my head for four or five years, producing frequent discharges, which would continue for one or two weeks at a time, and sometimes longer, often causing partial, and sometimes almost entire, deafness, so that I could not hear my watch tick when held close to the ear. At the time I called on you at Pittsburgh, in November last, I was suffering with my left ear which had been discharging for some time, and I am happy to state that I was very much relieved after receiving your personal attention for two or three days and the use of the remedies you gave me, for some time after my return home, has effected, I think an entire cure, as I now feel very comfortable.

Yours truly, W. WAGNER.

Cashier Morgantown National Bank.

Dr. Aborn is now stopping at the Pendleton Hotel, where he may be professionally consulted from 9 a. m. to 4 p. m.

(We re-publish the above, as several typographical errors appeared in our yesterday's edition, making the meaning obscure.—E. H. HEARD.)

WALL PAPERS—WALL PAPERS—Receiving daily a large assortment of all spring styles and entirely new patterns, to be disposed of at the lowest market rates. Our old stock of papers we will sell at less than cost, to make room for new. Decorations of all styles. Paper hanging by a good mechanic.

OLMSTED & JEWETT.

CALL at Bryn, Dillingham & Co.'s for steel plows, just received.

Messrs. FOOT, DAN & Co., dealers in hardware and oil, well supplied at Pioneer City, are having manufactured a wrought iron, case hardened working barrel, which has been thoroughly tested for some months and proved to be of great value. Their order for it is greatly in excess of the supply obtainable from the manufactory. There are some of the points of their superiority:

1. Three being no perceptible wear on the inside of the barrel, thus allowing the same one to be used in a pumping well for years.

2. In case the barrel is dropped into the well it would sustain no injury, thus differing from a barrel made of brass, or entirely of cast steel or cast iron.

3. Another point of its advantage over those made all of cast iron is its lightness, its strength and durability, resulting from being case hardened.

Notice—A Hecch house power engine and locomotive boiler, double ended, carry 175 pounds of steam safely, cost new, nearly \$10,000, as good as new, New York make, for \$700; call at 400 Broad street and complete rig for drilling, and all the tools and fixtures with the above engine for \$300. One 15 horse power engine and boiler, stationary, for \$300, and rig with it complete, a 250 barrel tank for \$800. One 10 horse power portable engine and complete rig with it for drilling or pumping, almost new, for \$550.

Engine of W. H. Hone, Box 158, Petroleum Centre, Pa., or N. G. Harrington, Goshen, Pa.
